

VISION

To create an inclusive and collaborative innovation ecosystem that empowers innovators from all backgrounds by providing access to advanced technological resources, fostering creativity, interdisciplinary learning, and industry-relevant skills, thereby contributing to regional development and the national vision of Aatmanirbhar Bharat.

MISSION

To nurture innovative thinking and hands-on learning through round the clock access to state-of-the-art facilities that support design, prototyping, and product development.

To develop employable and entrepreneurial skills among students by encouraging problem-solving, teamwork, and lifelong learning.

To promote interdisciplinary collaboration across departments, enabling both students and teachers to work on real-world challenges and transform ideas into market-ready solutions.

To strengthen industry-academia linkages by engaging with local industries and addressing their technological needs through collaborative projects.

To extend IDEA Lab benefits to students from neighbouring schools, colleges, and technical institutions, fostering a culture of innovation and inclusive technological advancement in the region.
